Guils de Cerdanya / La Cerdanya

In the best and most exclusive area of Guils de Cerdanya, is this avant-garde design house by a renowned Barcelona architect.

This line of single-family houses is located on the edge of the road towards Guils-Fontanera in a quiet area with very easy access.

In addition to its exclusive design, this house has a large garden facing south, which provides beautiful views of Puigmal.

Since its conception by the architect Sunyer, the house has been designed to enjoy wide spaces and excellent light.

On the ground floor with large windows and access to the garden are the dining room and kitchen open to it. Also on this floor we have the exquisitely decorated living room with a cozy fireplace and access to the outdoor terraces on the south side of the house.

From the main floor it is accessed by comfortable stairs to half floors where there are 2 double rooms with bathroom, and a spacious suite. All exterior with good views and good fitted wardrobes.

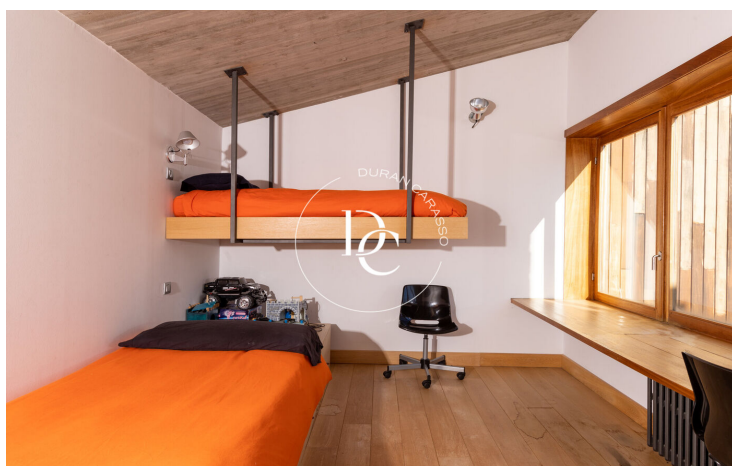

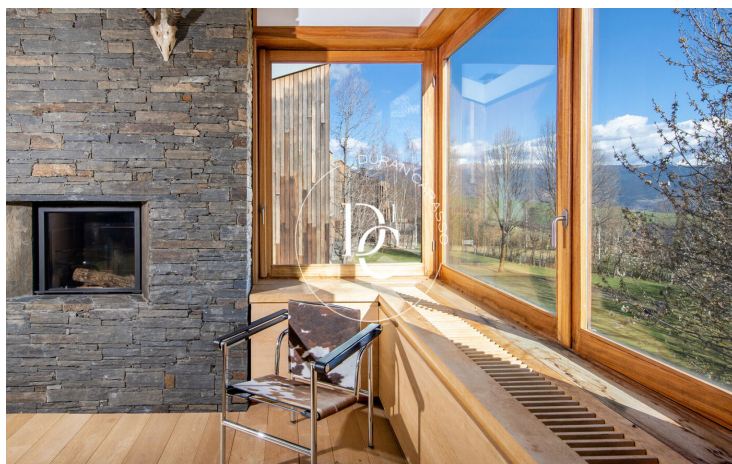

The service room (with bathroom) and the pantry and laundry area are on the ground floor.

From the parking lot of the house with an automatic door, there is access to a ground floor with a complete bathroom and a room for games.

An element to highlight in the house is that it has an annex-type apartment with a very good room with views and a complete bathroom. Below this there is a small living room with kitchenette. Ideal space for children or dedicated to a guest area.
